## TAVOR SWITCHBACK CHARGING HANDLE INSTALLATION INSTRUCTIONS

MADE IN

U. S. A.

**Warning: Always verify your rifle is unloaded prior to installing any parts!**

The Tavor Switchback Charging Handle is compatible with the following rifles:

IWI Tavor SAR - all barrel lengths and calibers

The following is included in the kit:

- (1) Switchback Charging Handle
- (1) Inner Lug and Rod
- (2) 4-40 screws
- (1) allen wrench

You will need the following tools:

Tools to remove upper handguard from Tavor per the Tavor manual

### STEP 1:

Remove the magazine from the rifle, pull back on the charging handle and ensure the chamber is clear of live ammunition. Let the charging handle go to the forward position and place the rifle on "SAFE"

### STEP 2:

Remove the upper handguard per the instruction manual included with your Tavor and remove the existing charging handle assembly from the upper handguard

### STEP 3:

Place the Inner Lug and Rod assembly on the inside of the handguard, and slide the Switchback Charging Handle through the outside until it fits into the inner lug.

### STEP 4:

thread the 4-40 screws into the front and rear face of the Inner Lug and tighten down until snug.

### STEP 5:

Re-install the upper handguard and charging handle per the Tavor manual.

### STEP 6:

Your Switchback Charging Handle is now installed! Fold out and pull back on the Switchback to test the handle. With no magazine inserted in the rifle, pull the handle back to the full reward position and let go- the handle should run forward and fold into the stowage position at the full forward position. The small "tooth" on the inside of the handle will lock it in the forward position when the handle is folded into the stowage position. When the bolt is locked open and then released the charging handle will go forward and fold into the stowage position on its own. **It is now safe to use the rifle.**

**NOTE:** The handle can be installed on either side of the weapon simply by following the instructions in the Tavor manual on how to switch sides of the charging handle.
