MAVERICK AMBI SAFETY FOR AR-15 INSTALLATION INSTRUCTIONS

Warning: Always verify your rifle is unloaded prior to installing any parts!

The Maverick AR-15 Safety is compatible with the following rifles:

AR-15 and all similar models

The following is included in the kit:

- (1) AR-15 60/90 Safety shaft
- (2) screws
- (1) Allen wrench
- (9) Safety levers of various size

You will need the following tools:

Screwdriver or allen wrench to remove the pistol grip from your AR-15

STEP 1:

Remove the magazine from the rifle, pull back on the charging handle and ensure the chamber is clear of live ammunition. Let the charging handle go to the forward position and place the rifle on "SAFE"

STEP 2:

Remove the pistol grip from your AR-15 with a screwdriver or allen wrench as appropriate. Make sure to remove the spring and detent out of the hole on the right side of the receiver under the safety lever when the grip is removed.

STEP 3:

Take the Safety Shaft and note the two sets of detent holes on the right side of it. Decide if you want the 60 degree throw (the holes closer together) or the 90 degree throw and FACE THOSE HOLES DOWNWARD. Now screw the safety lever of your choice on the left side of the Safety Shaft with the lever blade facing rearward.

STEP 4:

Insert the assembly into the left side receiver hole with the lever facing rearward in a horizontal position.

STEP 5:

Put the safety detent and spring back in the hole they came out of, and reinstall the pistol grip. Screw the preferred safety lever on the right side of the shaft.

STEP 6:

Flip the levers to confirm it locks in both the safe and fire positions, and that it is set up for the 60 or 90 degree throw as preferred. If you wish to switch the angle of throw, make sure the selector is on safe, remove the pistol grip, detent, and spring, and rotate the safety lever over 180 degrees and reinstall the safety levers to be in the correct orientation with blades facing rearward, then reinstall the detent, spring, and pistol grip.

PERFORM A FUNCTION CHECK PER THE WEAPON INSUTRCTION MANUAL TO VERIFY CORRECT OPERATION.

YOUR MAVERICK SAFETY IS NOW INSTALLED!
